

usart\_init\_tpuart

```
graph LR; A[usart_init_tpuart] --> B[USART_InterruptDriver_Initialize]
```

A diagram showing a call from a function to a driver. On the left, a gray rectangular box contains the text 'usart\_init\_tpuart'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'USART\_InterruptDriver\_Initialize'.

USART\_InterruptDriver  
\_Initialize
